---

has participated in the following openHPI course:

Mastering Design Thinking in Organizations
by Prof. Dr. Falk Uebernickel and Dr. Danielly de Paula

The 2-week course covered the following topics:

- A comprehensive overview of how Design Thinking is implemented in different organizations
- An understanding of how to implement, enact and embody Design Thinking in organizations based on successful cases
- How to support and empower employees to use Design Thinking to promote change
- How to measure and customize the process to account for business goals and organizational culture

The participant qualified for this confirmation by accessing more than 50% of all learning material.
